

## Uplyme Parish Council Notes

July 2019

### Uplyme Parish Anti-Litter Campaign

Keeping a litter free village is important to our residents, visitors and wildlife and whilst we would encourage all who live in and visit our village to either take their litter home with them or use one of the many bins provided by the Council, we realise that not everyone does and that sometimes litter and recycling does blow away. We are asking residents to do their bit and the public to be vigilant and pick up litter in the village immediately and bin it appropriately.

If you notice a frequent litter problem or large amounts of litter, you can phone 01404 515616 or email [streetscene@eastdevon.gov.uk](mailto:streetscene@eastdevon.gov.uk) and let them have as much detail as possible, including the location, an estimate of the amount, type of litter and if it is regular occurrence or a one off.

### Lighting a Bonfire in Uplyme

If you do plan to light a bonfire, please consider carefully the affect on your neighbours. There are a number of tips to avoid nuisance:

- do ensure that only dry material is burnt, quickly and in small quantities so the minimum amount of smoke is created. An incinerator makes this much easier
- do choose your bonfire site carefully, well away from trees, fences and windows. Beware of attempting bonfires on very windy days as it can easily get out of control. Have a hosepipe and buckets of water handy, just in case
- do advise your nearest neighbours before you light a bonfire so they can be prepared for any minor inconvenience that may arise
- do not burn damp grass clippings or 'green' material as this creates thick smoke
- do not burn any oily rags, rubber, plastics, damp garden waste or other materials, which would inevitably create heavy smoke or toxic fumes. Never add household rubbish or use sump oil to set it alight

- do not light a fire when weather conditions will cause problems. Smoke hangs in the air on damp, windless days and in the evening around sunset
- do not light a bonfire when your neighbours have washing drying, or are out enjoying their gardens or have windows wide open
- do not light bonfires one hour before dusk, or leave them burning overnight. Choose the time of day and weather conditions that will cause the least inconvenience to neighbours
- do not leave your fire to smoulder for long periods. Never leave a fire unattended. Hose it down until cold before you leave it or smother it with soil
- the ashes, when cold, can be raked into the soil as a useful fertiliser. Small pieces of charcoal can be included, but larger pieces should be picked out first

### Residents Advice and Queries

Following the elections campaign, Councillor Andy Turner has listened to the electors and found that some of the residents are unaware what the Parish Council/lors do and would like suggestions and communication to how we can reach out to the people in Uplyme, especially those based in the rural hamlets. Please contact Andy on 07779 030011

**Applications considered by the Planning Committee** (see minutes for full details):

- 19/1207/FUL, Wild Orchids, Harcombe Road, Axminster, EX13 5TB, Retention of existing track into agricultural paddock, Mr & Mrs R. Ireland, Supported

- 19/0009/TPO, Land at 11 Yawl Crescent, Uplyme, Devon, I would inform you that the above Tree Preservation Order made in respect of land in your area has been confirmed, Approved

#### **"My tree, my responsibility" campaign launched to tackle Ash dieback**

A new campaign has been launched to encourage landowners with ash trees on their property to inspect them for Ash dieback. Devon County Council's "My tree, my responsibility" campaign, supported by the Devon Ash Dieback Resilience Forum, aims to inform owners of trees to look out for signs of the fungal tree disease and to take any

appropriate action in order to maintain public safety. More than 90% of Devon's native ash trees are expected to be lost due to Ash dieback in the next five to 15 years. Across the county there are around 448,000 ash trees within falling distance of the highway that are owned by third parties or on unregistered land. The overall cost of felling all of these ash trees could be more than £70 million.

#### **Next Council Meeting**

Please come and have your say and/or support us at our next meeting on the **11<sup>th</sup> September 2019 at 7.15pm** at the Uplyme Village Hall. **All are welcome.**
